

REMARKS

Reconsideration is respectfully solicited.

Claims 6-10 correspond to claims 1-5, respectively, as amended in the response of October 5, 2007. An ABSTRACT is added as page 15 of the specification. (A Clean Sheet is attached hereto should it be of assistance to the printer.)

Applicants respectfully traverse the rejection of claims under 35 USC §§ 112 and 101 and over D1. Applicants expressly incorporate by reference the traversals set forth in the AMENDMENT of October 5, 2007. [The incorporation is for purposes of brevity as only the AMENDMENT sections of the October 5, 2007 paper were criticized in the November 19, 2007 paper.]

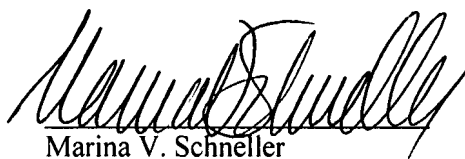

Amendments herein are presented to narrow the issue. In applicants' view, the action in the Notice of November 19, 2007 is ultra vires. Applicants note that Rule 121 does not relate to ABSTRACTs nor to addition of new pages. Applicants further note that the U.S. PTO did not comply with Section 714.IIF of the MPEP with respect to factual support for non-entry of claims. By way of illustration, it is not clear what changes, if any, were in fact required by the USPTO.

An early allowance is respectfully solicited.

Respectfully submitted,

Dated:

Nov 27 2007
